

GJ-5FA-L

DC SOLID STATE RELAY (PCB MOUNTING)

Type meaning

GJ - 5:[5A] - **FA**:[DC-DC (DC input-DC output)] - **L**:[SIP(single in line package)]

Features

- Rated current: 5Amps
- Rated voltage: 5-220VDC
- Control voltage: 3-32VDC
- Control current: $\leq 10\text{mA}$
- SIP 4-pin package
- "Ultra low" input current
- Low output off-state leakage current
- Low output on-state voltage drop
- Low-impedance MOSFET as the output component minimize the total power consumption
- British standard PCB mounting dimensions

Application

- Normally used in air conditioners, balers and other household appliances.
